From the Audio Team - When using the temporary screen in the pulpit, you must have the computer up front. Anyone doing the presentations needs to have their own computer. Audio cannot do anything from upstairs until further notice. You will physically have to go up front and turn it on and turn it off. There is a remote there to turn it off to let the fan cycle itself off to cool the bulb. The good thing about it is the projector is not a Roku and we do not have to worry about advertisements.

November is Pocket Signs month - Why not use Pocket Signs to share your faith with a friend or neighbor? You can even share them with people you don't know. they are easy to leave at hotels, restaurants, and other places where you meet people. Lives will be changed by these fresh and interesting tracts.
